K50 LED Lights Mobile Lighting System

The K50 Mobile Lighting System offers high-power illumination for indoor and outdoor use, providing a superior alternative to traditional mobile tower lights. This versatile system can be powered by 110V and 240V mains power, auxiliary batteries, diesel generators, or alternative energy sources such as HVO, LPG, and Glycerine. The K50 floodlights provide outstanding lighting performance while being portable and easily deployed by a single operator. Choose the K50 for unparalleled flexibility and exceptional illumination for any project or setting.

Features & Benefits

- 6000 sq m of illuminated space guaranteed
- Auto start/stop light sensor
- 3 x 360W LED Floodlights providing instant bright lights with no wait time
- Optional dimmer switch to reduce light output
- Onboard levels for guidance during stabilisation
- Quick and easy set-up
- Mast safety system
- Forklift pockets for easy handling
- Wheels for manual repositioning
